

Micromedex[®] Tips and Tricks for Nurses

Micromedex Assistant and Keyword Search

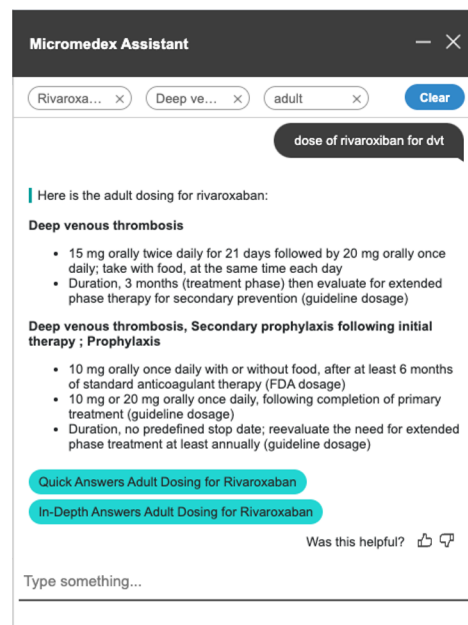

Use the Micromedex Assistant to get quick answers to drug information without having to navigate to find the section in the monograph. The Micromedex Assistant has been trained to answer with **Quick Answers** content, as well as **IV compatibility** and **drug interactions**. Quick links at the end of the answer take you to Quick or In-Depth Answers within the monograph.

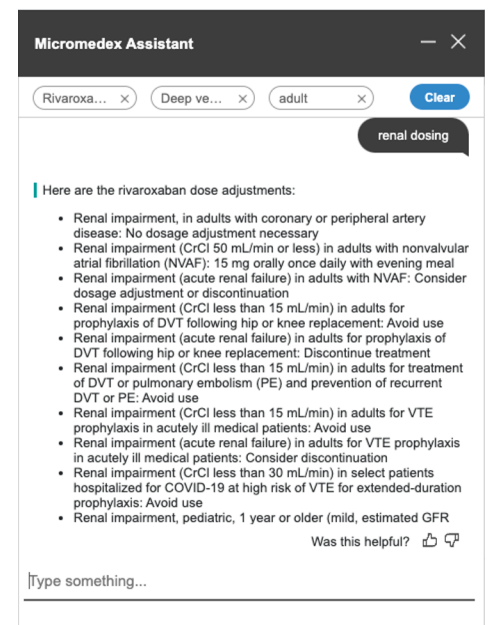

1. Ask a question

2. Get the answer. Ask another

3. Get the answer

Use the Keyword search for general, disease, or toxicology questions

Search Term/Phrase	Description
Abbreviations	Returns the Drug Consult Abbreviations, which provides definitions for abbreviations used commonly throughout Micromedex content.
ACLS/PALS treatment	Select Calculators (or Other Tools) on the toolbar and locate ACLS/PALS below Dosing Tools . An ACLS/PALS treatment calculator is available when a weight is entered.
Chemotherapy	Returns Drug Consults such as Chemotherapy Dosing in Obese Patients, Chemotherapy and radiotherapy Treatment Guidelines for Nausea and Vomiting and others.
Do not confuse list	Presents a list of commonly confused drug names, including look-alike/sound-alike name pairs. Also located under Resources on the home page.
Drugs that cause Hyperkalemia	Returns a list of drugs associated with hyperkalemia. Click on 'T' and choose tacrolimus; see tacrolimus adverse effects. Under Serious, Endocrine: view incidence for hyperkalemia. For more detailed evidence on this ADR, click In-Depth Answers, Endocrine/Metabolic, Hyperkalemia.
Guidelines	Returns an extensive list of Drug Consults summarizing treatment guidelines covering infectious diseases, cardiovascular, neurologic, immunologic, endocrine/metabolic, and more.
Enteral feeding tubes	Returns the Enteral Feeding Tubes and Medication Delivery Drug Consult.
Formula to prepare or make an extemporaneous medication	Search for an individual medication and select the Storage and Stability section in the monograph. The recipe, storage and stability data will be contained in the In-Depth Answers section. Example: Lansoprazole—Oral suspension compound instructions are listed in the Storage and Stability section.
To find: IV compatibility for Fluids—Dextrose, normal saline	Select IV Compatibility (single) in Quick Answers to view information for solutions (Dextrose, Normal Saline). Or select IV Compatibility from the toolbar.
Extravasation	Returns results that include Drug Consults, Cytotoxic Drug Extravasation Therapy and Non-Cytotoxic Drug Extravasation Therapy.
Mobile apps	Passwords are found under the Mobile Application Access section on the home page. Passwords for the NeoFax[®] and Pediatrics apps are found in the NeoFax application, under Mobile at the top right of the display.
Dialyzability	Searches using a drug name typically go directly to Quick Answers . Click the Pharmacokinetics section. Dialyzability will be included in Excretion .

Statement of Good Security Practices: IT system security involves protecting systems and information through prevention, detection and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, misappropriated or misused or can result in damage to or misuse of your systems, including for use in attacks on others. No IT system or product should be considered completely secure and no single product, service or security measure can be completely effective in preventing improper use or access. Merative systems, products and services are designed to be part of a lawful, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products or services to be most effective. Merative does not warrant that any systems, product or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.
